

# MCP WORKSHOP

## SERIES: THIN FILM

### SYNTHESIS

### METHODS

Monday, May 18th  
10.00–1.00 PM

Our Location  
**STIEFF SILVER  
BUILDING, MCP G02**

This workshop will provide an overview of thin film science and technology, with particular focus on physical vapor deposition (PVD) methods. Special emphasis will be placed on our in-house magnetron sputtering capabilities, including practical considerations and applications.
