Course Description:

The Exploring Leadership for Hopkins Students Who Want to Make a Difference seminar is designed specifically for second year undergraduates at JHU and is limited to that population.

An eight-week seminar and experiential program designed to provide the following learning outcomes for students enrolled:

1. Understand self-others and how to work effectively in communities
2. Understand the importance of integrity, moral purpose, and positive change.
3. Understand how change occurs and why people resist or promote change.
4. Understand the importance of enhancing and applying individual team strengths, developing greater levels of well being for you and in others, and thriving together as individuals and organizations.
5. Form positive connections and relationships with upper class students and alumni in areas of career interests.

The seminars will include discussion and assignments from Exploring Leadership: for College Students Who Want to Make a Difference Komives and McMahon. The experiential component of the course will include programs designed to enhance classroom content and expose students to the on campus and off campus involvement opportunities available.
