Johns Hopkins University – Tuscarora Campus
Frederick County Engineering Innovation
June 29 – July 24, 2015
9:00 AM – 3:00 PM

TO: Students and their Parents
From: Reza Mirdamadi; Instructor and Paul Hoyt; Teaching Fellow

Location and Time Schedule:
Tuscarora High School is located at 5312 Ballenger Creek Pike, Frederick, MD 21703.
On the first day, we will meet near the front office of Tuscarora High School. You will know you are on the correct side of the high school if you see a greenhouse and flagpoles. The entrance closest to the front office is next to the flagpoles. We will be waiting there to greet everyone.

Students will be given a 45 minute lunch break each day from 11:30 – 12:15.
Parents are advised that the students may leave the high school to get lunch from various fast food locations in the area.
Tuscarora High School is generally closed on Fridays during summer session. All students must leave the grounds including the parking lots by the closing hour as there are no administrative or custodial staff present on Fridays.

Instructions and Learning Objectives:
We will be spending considerable time in the lab during the 4-weeks, and the majority of students’ in-class activities are done within a group. However, it is the student’s responsibility to gather and understand all the details about the experiments including the written reports when conducting lab assignments. This kind of first-hand knowledge will ensure your success on individual assignments, such as quizzes and the final exam.

To make sure that we have a productive 4 weeks of instruction, please adhere to the following guidelines:

- Students are required to wear closed-toe shoes during lab assignments. If you want to wear flip-flops or sandals for the lecture portion of class, please remember to bring appropriate shoes to change into for the labs.
- You will need a notebook, pen, calculator and a thumb drive.
- It is important to make sure that your cell phone is on silent and do not text or use your cell phone during lectures and labs and particularly during quizzes.

Please feel free to contact us with any questions or concerns. We look forward to meeting you on June 29, 2015 at 9:00 AM
