

FORUM ON ENGINEERED AI SYSTEMS

JUNE 5-6, 2024

AI is no longer just a software enterprise but a systems integration tool. The forum will consider the promising and perils of engineered AI systems across many domains, including significant implications for ethics, policy, and education.

The event aims to bring together leading professionals, researchers, and thought leaders to discuss the latest advancements, challenges, and future directions in the realm of Engineered AI Systems.

5-6 June, 2024
8:00 am – 5:30 pm

555 Pennsylvania Ave, NW
Washington DC, 20001
