Do you want to inspire young engineers? Make a video for SABES: MEET THE ENGINEER

What is SABES: Meet the Engineer?

SABES (STEM Achievement in Baltimore Elementary Schools) is an engaging online after school program for 4th-5th grade students. This year we're recruiting STEM students and professionals to inspire creativity in our young engineers' student-driven projects through Meet the Engineer videos.

What We Need From You

Record a 5 - 10 minute video presentation that includes:
- What you do in a STEM field
- Why you chose your major/career
- Something cool you're working on
- How you use the Engineering Design Process (EDP)
- Fun facts about yourself

Click here for more information on submitting your video by November 30th. For questions, email sabes@jhu.edu.
