

# Attention School Administrators!

BOAST is a free asynchronous online program designed to help your students think like an engineer by solving math intensive engineering challenges.

This program is funded by a NSF grant (DRL-2005790) awarded to the Johns Hopkins University.

---

## School commitment to provide:

- Computer lab or laptop cart for students to access content
- A staff member to provide support who will be hired and paid by JHU
- At least 8 interested students (students will have a 50% chance of being randomly selected to participate in the program)

---

## Student eligibility requirements:

- City Schools 9th and 10th grade students
- Students who received a C or above in Algebra 1

---

## Program highlights:

- 3 hours per week solving challenges throughout the school year
- Materials to help solve challenges
- Access to an online instructor, in-person resource coach, and mental health professionals
- A chance to win \$1000 for the school!
