Be a Part of the History and Future of Johns Hopkins Engineering

The General Assembly of the State of Maryland passed by the Maryland Legislature of a bill “establishment of schools for the advancement of science and literature.” Authorization of Johns Hopkins University was welcomed by prominent men throughout the country. Resident Wilson, then Governor of New Jersey, (Speaker of the Johns Hopkins University), said:

“The University, the State and the whole country are to be most heartily congratulated on the action of the Legislature. Maryland will thus quicken and advance the industrial development of the Nation.”

Speaker Clark said:

“Maryland will long be proud of the work of the Legislature in establishing the school.”

Majority Leader Ogden Hammond of the House of Representatives said:

“No educational achievement of recent years meant as much for the South as the action of the Maryland Legislature in establishing the Johns Hopkins University.”

100 YEARS
JOHNS HOPKINS ENGINEERING
Help us to further engineering research and scholarship by having your name included on the Centennial Wall as we move forward into our next 100 years of excellence.

In recognition of the 129 scholarships established at the School’s founding in 1912, please help us to raise 129 gifts, allowing us to create and endow a transformational undergraduate scholarship.

“No section of the country is growing South. Its great resources are being developed by its young men must be equipped with the technical education to meet the responsibilities of development. We need young men skilled in engineering, in civil engineering, in electrical engineering, in mechanical engineering, in a thousand branches of that one profession, that they may perform all that the country requires of its men.”
Upon founding the university, its benefactor, Johns Hopkins, made clear his intent that young people of “character and intellectual promise” deserved an education of the highest caliber, regardless of their financial means. In 1912, when the Maryland State Legislature appropriated funds to establish “a school or department of applied science and advanced technology,” this commitment remained a guiding precept at the Engineering School’s founding as the only stipulation was the provision to set aside sufficient funds to establish 129 scholarships.

For the past century, the university has remained dedicated to providing the most driven and qualified students with unparalleled educational opportunities and Johns Hopkins Engineering has strived to provide the most talented young minds with access to the education and opportunities that will enable discoveries, give voice to their insights, and allow them to make their mark on the world.

Today, scholarship support remains a critical need at Johns Hopkins Engineering. By participating in the Engineering Centennial Scholarship Program, you will help us build upon the accomplishments of the past 100 years and fuel the next generation of innovations and discoveries.

Please join us in supporting the Engineering Centennial Scholarship Program, recognizing Johns Hopkins Engineering’s first 100 years of excellence, and paving the way for the next century. Gifts of $10,000 in support of this program will be recognized on a Centennial Wall, which will be prominently displayed on the Homewood campus.
Please return this card to the address on the back of this brochure if you are interested in participating in this very special opportunity to have your name and commitment forever linked with Johns Hopkins Engineering’s Centennial Anniversary.

Gift Information
☐ YES, I would like to be included in the centennial anniversary celebration and on the Centennial Wall by supporting the Engineering Centennial Scholarship with a gift of $10,000.

☐ Please list my name on the Centennial Wall as follows:

☐ Please do not include my name on the Centennial Wall.

Payment Information
☐ Check enclosed (Payable to JHU Whiting School of Engineering)
☐ Credit Card ☐ Two-year pledge (to be paid in full by June 30, 2014)

Credit card information:
☐ Visa  ☐ MasterCard  ☐ Discover  ☐ Am. Express

Name on the card

Credit card number

Exp. date/year    Security code

Signature
